PERSONAL STATEMENT

Motivated and detail-focused MSc Financial Technology student at the University of Exeter, with a B.Com background and practical experience in financial analysis, data interpretation, structured research and professional administration. Skilled in Excel, Python, R, SQL and PowerPoint, with experience working with financial information, identifying discrepancies, preparing clear documentation and communicating complex findings to different audiences. I am interested in opportunities that combine analytical work, business understanding and technology, and I am keen to contribute strong numerical, organisational and communication skills in a fast-paced professional environment.

EDUCATION

MSc Financial Technology | University of Exeter | Exeter 2025 - 2026
Grade (predicted): Distinction | (+70%) coursework includes Econometrics, Financial Modelling, Financial Management.
B. Com General (Commerce) | University of Madras | Chennai 2022 - 2025
Grade: 7.2/10 (UK 2:1 equivalent)

WORK EXPERIENCES

Accounting Intern | *Varadarajan & Co, Chartered Accountants* | Chennai 09/2024 - 08/2025

- Maintained financial records and statements for 10 ongoing clients using Microsoft Excel (pivot tables, VLOOKUP, charts) and Tally ERP, processing ~1,000 transactions per client monthly across 3-5 bank accounts, directly supporting income tax filing for medium-sized businesses (travel agency, jewellery shop).
- Performed monthly bank reconciliations across 10 clients' accounts, identifying data discrepancies including unrecorded fees, duplicate transactions, and inventory mismatches; detected and resolved a significant £500 discrepancy, strengthening data accuracy and compliance.
- Conducted stock audit for HWASEUNG (car parts factory) over 2 days: analyzed general ledger and cash accounts for discrepancies, physically verified ~50 items from 500+ inventory items through sampling methodology, and validated all capital-intensive machinery purchases, ensuring 100% accuracy of assets on record.
- Prepared and filed 7 individual and business income tax returns, ensuring complete documentation, regulatory compliance and timely submission.
- Demonstrated proficiency in financial data handling using Microsoft Excel (pivot tables, VLOOKUP, formulas, charts) and Tally ERP software, building strong foundation in data accuracy, reconciliation and operational reporting.

PROJECTS

Blockmediary, Programmable Documentary Escrow Platform | Chief Compliance Officer | University of Exeter 06/2026 - 08/2026

- Built a blockchain-based documentary escrow platform for SME cross-border trade using Base, USDC and smart-contract logic to automate document-compliant fund release as an alternative to traditional Letters of Credit.
- Led the legal and compliance workstream, producing a 20-risk register and conducting regulatory analysis across the UK, EU and UAE to support product design and launch-market decisions.
- Benchmarked five competitors and created UCP 600 and Incoterms 2020 guidance, translating complex trade finance and regulatory requirements into practical recommendations for a multidisciplinary team.

Financial Modelling | University of Exeter 01/2026 - 05/2026

- Acted as Lead Quantitative Analyst in a six-member team, applying mean-variance optimisation, efficient frontier analysis and the Black-Litterman model to construct and evaluate multi-asset investment portfolios.
- Built yield curves using bootstrapping and Nelson-Siegel modelling, completed bond valuation and analysed portfolio performance using return, volatility, Sharpe ratio and maximum drawdown metrics.
- Conducted out-of-sample testing, estimation-bias analysis and rolling-window statistical arbitrage, improving out-of-sample Sharpe performance from 0.41 to 0.56 and reducing maximum drawdown from 1.23% to 0.98%.

CERTIFICATES

ExCode | University of Exeter Oct 2025

- Completed ExCode, a certified student-led Python bootcamp at the University of Exeter, focusing on practical programming and problem-solving through collaborative lectures and hands-on projects.

Accounting, GST & TDS certificate | ACC Institute of Commerce | Chennai July 2024

- Awarded Accounting, GST & TDS certificate for completing a Tally-based project on tax calculations, input tax credit, and GST for a company's annual statements, covering the entire supply chain.

VOLUNTEERING

Active participant in National Service Scheme (NSS) | The University of Madras 2022 - 2025

- Demonstrated evidence of teamwork, initiative, and commercial awareness in taking the initiative to conduct coastal cleaning activities, as well as documenting the data correctly to support environmental causes.
