

BADHRI NARAYANAN GIRI

Greenhithe, UK | badhrinarayanan2005@gmail.com | [LinkedIn](#) | [Website](#)

MSc Financial Technology graduate from the University of Exeter (predicted Distinction) with a year of accounting experience across 10 client portfolios, covering reconciliations, audits and tax filings. Combines that grounding in accurate financial records with quantitative skills in portfolio optimisation, econometrics and financial modelling, and regulatory judgment from leading compliance on an award-winning blockchain trade finance platform. Looking for analyst roles in corporate finance, banking and financial services. Eligible for the UK Graduate Visa (no sponsorship required) and open to relocating anywhere in the UK.

WORK EXPERIENCES

Accounting Intern | *Varadarajan & Co, Chartered Accountants* | Chennai 09/2024 - 08/2025

- Maintained financial records and statements for 10 ongoing clients in Microsoft Excel (pivot tables, VLOOKUP, charts) and Tally ERP, processing ~1,000 transactions per client monthly across 3-5 bank accounts to support income tax filing for medium-sized businesses.
- Performed monthly bank reconciliations across all 10 clients, identifying unrecorded fees, duplicate transactions and inventory mismatches, and resolving a significant £500 discrepancy.
- Conducted a 2-day stock audit for a car parts manufacturer (HWASEUNG), verifying ~50 of 500+ inventory items through sampling, checking the general ledger and cash accounts, and validating capital machinery purchases.
- Prepared and filed 7 individual and business income tax returns with complete documentation, meeting statutory deadlines.
- Documented all daily work and presented it weekly to the firm's partners, acting on their review and feedback to improve the quality of work.

PROJECTS

Blockmediary: Programmable Escrow for SME Trade Finance | Chief Compliance Officer | University of Exeter 09/2025 - 12/2025

- Six-person team built a documentary escrow platform for SME cross-border trade, where the buyer's USDC is locked in a smart contract and released once trade documents pass rule-based checks; executed an end-to-end settlement with real USDC on Base Mainnet.
- Led the legal and compliance workstream: built a 31-item legal risk register across the UK, EU and UAE, co-led the UAE licensing analysis (ADGM, DIFC, VARA) and revised the team's recommended regulatory route when new licensing research changed the picture.
- Drafted the Trade Escrow Agreement template and UCP 600 and Incoterms 2020 guidance for the document checks, benchmarked five competitors, and gave compliance sign-off before the mainnet transaction.
- Won Most Innovative Idea (group category) at the 5th Annual FinTech West Student Talent Showcase, judged by Lloyds Banking Group.

Financial Modelling: Portfolio Optimization & Quantitative Strategy Analysis | University of Exeter 01/2026 - 05/2026

- Acted as Lead Quantitative Analyst in a six-member team, applying mean-variance optimisation, efficient frontier analysis and the Black-Litterman model to construct and evaluate multi-asset investment portfolios.
- Built yield curves using bootstrapping and Nelson-Siegel modelling, completed bond valuation and analysed portfolio performance using return, volatility, Sharpe ratio and maximum drawdown metrics.
- Conducted out-of-sample testing, estimation-bias analysis and rolling-window statistical arbitrage, improving out-of-sample Sharpe performance from 0.41 to 0.56 and reducing maximum drawdown from 1.23% to 0.98%.

EDUCATION

MSc Financial Technology | University of Exeter | Exeter 2025 - 2026

Grade (predicted): +70% (Distinction) | coursework includes Econometrics, Financial Modelling, Financial Management.
